

Call for Abstracts: Poster Session

The **First International Conference of Technical Professionals in the Field of Pathology, Anatomy, and Forensic Medicine** cordially invites submissions of abstracts for the poster session.

We welcome contributions in the following areas:

- Pathology
- Anatomy
- Forensic Medicine
- Preparation Techniques (classical and innovative)
- Methodological and technical developments
- Quality assurance, education, and best practices in preparation
- Interdisciplinary approaches and case studies

This call is primarily aimed at experienced professionals, early-career professionals, trainees, and students with innovative projects, novel methods, or exceptional case studies are also strongly encouraged to submit.

We especially welcome contributions that:

- present innovative or rare preparation techniques
- introduce new technical solutions or materials
- demonstrate practical improvements in laboratory or autopsy techniques
- highlight interdisciplinary perspectives

We look forward to receiving a wide range of exciting submissions from the international community.

The three best posters will receive a **Poster Award**, kindly **sponsored by the German Society for Preparation Techniques** (*Deutsche Gesellschaft für Präparationstechnik, DGP*).

Winners will be selected by an international expert jury based on scientific quality, originality, and presentation.

Abstract Submission

- **Deadline:** January 8, 2027
- **Limit:** we can accommodate a maximum of 60 posters
- **Language:** English
- **Length:** max. 500 words
